

# BA & MA theses

Students at SEAS produce around 200 theses every year. We publish the author, title, supervisor, and status of these theses in [a searchable database](#). This hints at the kind of work students and supervisors are engaged in at SEAS, as well as suggesting topics (and supervisors) for future thesis writers. The texts and assessment of the theses is only available for SEAS faculty. However, about ten of the best theses are distinguished each year by the [Outstanding Thesis Award](#) and published in the journal [overSEAS](#).
